

PHIBROWS MICROBLADING COURSE

2 DAY WORKSHOP
MASTER JUDY NGUYEN

PhiAcademy

“Phi Academy creates beauty through golden intersection proportions (phi -1.618). We see the perfection in the golden intersection between two extremes.

We know that you can learn everything if the material is divided into small portions that are taught separately.

Our students are taught through live or online courses and they have to pass very strict criteria and standards prior to obtaining their certificates.

With respect to the modern lifestyle, our studies are designed in such a way to save precious time and provide maximum surveillance and maximum available information at the same time. All our students are taught in special **Craft Master** application. On one hand, the application represents a base of all the pieces of information about the skill and, on the other hand, a platform in which the student and the master are going towards the same goal through mutual communication. Application contains a lot of tools to facilitate the work of both students and masters.

In addition to passing the skills, we try to teach our students to respect their clients. Respecting clients includes taking care of them. Taking care of clients includes using high quality products and technique” - PhiAcademy

In 2020, The PhiAcademy will focus on their existing Artists, Royal Artists, Masters, Grand Master by offering free access to 4 important courses including Hygiene Course, Skin Expert, 1st Class Service and Get More Clients. set up your own business in Microblading and Shading. PhiAcademy is the only beauty academy in the World which offers the continuing support to their students and artists even after the training.
